LARGE MUSHY PEAS BATCH

Ingredients

7 green pea steeping tablets
3L (approx) of Marrowfat dried peas
1 tablespoon of salt
1 tablespoon of sugar

Method

Put 5 green pea steeping tablets into a tub and cover with boiling water.

Pour 3L (approx) of Marrowfat dried peas into a 10L cooking pot.

When the pea steeping tablets have fully dissolved, pour
into the cooking pot.

Fill the cooking pot with cold water until nearly full. Give the peas a stir
and cover with a lid.

Leave overnight in a cool area to allow the peas to soak.

After approximately 10 hours of soaking the peas, drain, rinse and pour
peas back into the cooking pot.

Put 2 green pea steeping tablets into a jug, cover with boiling water.

When the pea steeping tablets have fully dissolved, pour
into the cooking pot.

Add 1 tablespoon of salt and 1 tablespoon of sugar. Give the peas a stir and
place the pot onto the cooker.

Bring to the boil, stir occasionally then turn the heat down and simmer
until the peas are mushy approximately 20 minutes.
